# American Journal of Physiology: Endocrinology and Metabolism

**No. 1. JULY 1997**

Specific adaptations in muscle and adipose tissue in response to chronic systemic glucose oversupply in rats
*D. R. Laybutt, D. J. Chisholm, and E. W. Kraegen* E1

Effect of methionine-free total parenteral nutrition and insulin-like growth factor I on tumor growth in rats
*S. Yoshida, J. Ohta, Y. Shirouzu, N. Ishibashi, Y. Harada, H. Yamana, and K. Shirouzu* E10

Accelerated glycogenolysis in uremia and under sucrose feeding: role of phosphorylase *a* regulators
*Z. Bakkour, D. Laouari, S. Dautrey, J.-P. Yvert, and C. Kleinknecht* E17

Phorbol esters stimulate muscle glucose transport by a mechanism distinct from the insulin and hypoxia pathways
*P. A. Hansen, J. A. Corbett, and J. O. Holloszy* E28

Cholate inhibits high-fat diet-induced hyperglycemia and obesity with acyl-CoA synthetase mRNA decrease
*S. Ikemoto, M. Takahashi, N. Tsunoda, K. Maruyama, H. Itakura, K. Kawanaka, I. Tabata, M. Higuchi, T. Tange, T. T. Yamamoto, and O. Ezaki* E37

Poor fetal nutrition causes long-term changes in expression of insulin signaling components in adipocytes
*S. E. Ozanne, B. T. Nave, C. L. Wang, P. R. Shepherd, J. Prins, and G. D. Smith* E46

Modulation of gliquidone action by forskolin in the pancreas of normal and GK rats
*V. Leclercq-Meyer and W. J. Malaisse* E52

Molecular analysis of insulin resistance in isolated ventricular cardiomyocytes of obese Zucker rats
*T. Kolter, I. Uphues, and J. Eckel* E59

Glucose transporter expression in L6 muscle cells: regulation through insulin- and stress-activated pathways
*C. Taha, T. Tsakiridis, A. McCall, and A. Klip* E68

Intestinal growth-promoting properties of glucagon-like peptide-2 in mice
*C.-H. Tsai, M. Hill, S. L. Asa, P. L. Brubaker, and D. J. Drucker* E77

Prolonged submaximal eccentric exercise is associated with increased levels of plasma IL-6
*T. Rohde, D. A. MacLean, E. A. Richter, B. Kiens, and B. K. Pedersen* E85

Lactic acid potentiates bradykinin- and low-pH-induced release of CGRP from rat spinal cord slices
*X. Wang and R. R. Fiscus* E92

Mixed muscle protein synthesis and breakdown after resistance exercise in humans
*S. M. Phillips, K. D. Tipton, A. Aarsland, S. E. Wolf, and R. R. Wolfe* E99

Regional lipolytic responses to isoproterenol in women
*Z. Guo, C. M. Johnson, and M. D. Jensen* E108

IGF-I regulation of $Na^+$-$K^+$-ATPase in rat arterial smooth muscle
*P. R. Standley, F. Zhang, R. M. Zayas, R. Muniyappa, M. F. Walsh, E. Cragoe, and J. R. Sowers* E113

An abundant supply of amino acids enhances the metabolic effect of exercise on muscle protein
*G. Biolo, K. D. Tipton, S. Klein, and R. R. Wolfe* E122

The somatotropic axis in neonatal calves can be modulated by nutrition, growth hormone, and Long-$R^3$-IGF-I
*H. Hammon and J. W. Blum* E130

In vivo NMR investigation of intramuscular glucose metabolism in conscious rats
*B. M. Jucker, A. J. M Rennings, G. W. Cline, K. F. Petersen, and G. I. Shulman* E139

Exercise blunts declines in lipolysis and fat oxidation after dietary-induced weight loss in obese older women
*B. J. Nicklas, E. M. Rogus, and A. P. Goldberg* E149

Water deprivation upregulates ANG II $AT_1$ binding and mRNA in rat subfornical organ and anterior pituitary
*G. L. Sanvitto, O. Jöhren, W. Häuser, and J. M. Saavedra* E156

Increased sciatic nerve blood flow in diabetic rats: assessment by "molecular" vs. particulate microspheres
*K. Chang, Y. Ido, W. LeJeune, J. R. Williamson, and R. G. Tilton* E164

Diabetes impairs sciatic nerve hyperemia induced by surgical trauma: implications for diabetic neuropathy
*Y. Ido, K. Chang, W. LeJeune, R. G. Tilton, W. W. Monafo, and J. R. Williamson* E174

Differential effects of lipoic acid stereoisomers on glucose metabolism in insulin-resistant skeletal muscle
*R. S. Streeper, E. J. Henriksen, S. Jacob, J. Y. Hokama, D. L. Fogt, and H. J. Tritschler* E185

## MODELING IN PHYSIOLOGY

Constant infusion and bolus injection of stable-label tracer give reproducible and comparable fasting HGO
*R. Hovorka, D. J. A. Eckland, D. Halliday, S. Lettis, C. E. Robinson, P. Bannister, M. A. Young, and A. Bye* E192

## RAPID COMMUNICATIONS

Attenuation of leptin-mediated effects by monosodium glutamate-induced arcuate nucleus damage
*R. Dawson, M. A. Pelleymounter, W. J. Millard, S. Liu, and B. Eppler* E202

Expression of monocarboxylate transporter MCT1 by brain endothelium and glia in adult and suckling rats
*D. Z. Gerhart, B. E. Enerson, O. Y. Zhdankina, R. L. Leino, and L. R. Drewes* E207

Nociceptin, a novel endogenous ligand for the $ORL_1$ receptor, has potent erectile activity in the cat
*H. C. Champion, R. Wang, W. J. G. Hellstrom, and P. J. Kadowitz* E214

Exercise-stimulated glucose transport in skeletal muscle is nitric oxide dependent
*C. K. Roberts, R. J. Barnard, S. H. Scheck, and T. W. Balon* E220

Leptin increases uncoupling protein expression and energy expenditure
*P. J. Scarpace, M. Matheny, B. H. Pollock, and N. Tümer* E226

## LETTERS TO THE EDITOR

Critical fatness hypothesis
*R. E. Frisch; J. E. Schneider and G. N. Wade* E231

## No. 2. AUGUST 1997

Metabolic responses from rest to steady state determine contractile function in ischemic skeletal muscle
*J. A. Timmons, S. M. Poucher, D. Constantin-Teodosiu, I. A. Macdonald, and P. L. Greenhaff* E233

Chronic electrical stimulation increases MCT1 and lactate uptake in red and white skeletal muscle
*K. J. A. McCullagh, R. C. Poole, A. P. Halestrap, K. F. Tipton, M. O'Brien, and A. Bonen* E239

Effects of triiodothyronine administration on the adenylyl cyclase system in brown adipose tissue of rat
*H. Adli, R. Bazin, R. Vassy, and G. Y. Perret* E247

Insulin resistance in adipocytes after downregulation of $G_i$ subtypes
*A. Green, D. J. A. Walters, and S. E. Belt* E254

Interleukin-6 secretion in mice is associated with reduced glucose-6-phosphatase and liver glycogen levels
*S. Metzger, N. Goldschmidt, V. Barash, T. Peretz, O. Drize, J. Shilyansky, E. Shiloni, and T. Chajek-Shaul* E262

Fatty acid oxidation is directly regulated by carbohydrate metabolism during exercise
*E. F. Coyle, A. E. Jeukendrup, A. J. M. Wagenmakers, and W. H. M. Saris* E268

Decreased muscle insulin receptor kinase correlates with insulin resistance in normoglycemic Pima Indians
*J. F. Youngren, I. D. Goldfine, and R. E. Pratley* E276

Glucose turnover in humans in the basal state and after intravenous glucose: a comparison of two models
*D. Overkamp, J. F. Gautier, W. Renn, A. Pickert, A. J. Scheen, R.-M. Schmülling, M. Eggstein, and P. J. Lefèbvre* E284

Effect of acute plasma volume expansion on substrate turnover during prolonged low-intensity exercise
*S. M. Phillips, H. J. Green, S. M. Grant, M. J. MacDonald, J. R. Sutton, R. E. Hill, and M. A. Tarnopolsky* E297

Insulin-stimulated amino acid utilization during glucose and amino acid clamps decreases with development
*D. Wray-Cahen, P. R. Beckett, H. V. Nguyen, and T. A. Davis* E305

Effects of dexamethasone on hepatic glucose production and fructose metabolism in healthy humans
*P. Tounian, P. Schneiter, S. Henry, J. Delarue, and L. Tappy* E315

Gender differences in energy expended during activities and in daily energy expenditure of elderly people
*B. Morio, B. Beaufrère, C. Montaurier, E. Verdier, P. Ritz, N. Fellmann, Y. Boirie, and M. Vermorel* E321

Involvement of capsaicin-sensitive nerves in regulating the hormone and glucose metabolic response to endotoxin
*A. E. Morgan and C. H. Lang* E328

Ovine fetal metabolism during norepinephrine infusion
*J. R. Milley* E336

Regulation of glucose production during exercise at 80% of $\dot{V}o_{2peak}$ in untrained humans
*A. R. Coggan, C. A. Raguso, A. Gastaldelli, B. D. Williams, and R. R. Wolfe* E348

Interaction of corticosterone and gonadal steroids on lipid deposition in the female rat
*Y. Deshaies, A. Dagnault, J. Lalonde, and D. Richard* E355

Splanchnicotomy increases adrenal sensitivity to ACTH in nonstressed rats
*M. S. Jasper and W. C. Engeland* E363

Diabetic RBC-induced oxidant stress leads to transendothelial migration of monocyte-like HL-60 cells
*V. Rattan, Y. Shen, C. Sultana, D. Kumar, and V. K. Kalra* E369

Superoxide dismutase reduces islet microvascular injury induced by streptozotocin in the rat
*M. Enghofer, K. H. Usadel, O. Beck, and K. Kusterer* E376

Mechanisms of homologous and heterologous desensitization of PTH/PTHrP receptor signaling in LLC-$PK_1$ cells
*J. Guo, B.-Y. Liu, and F. R. Bringhurst* E383

Moderate exercise at energy balance does not affect 24-h leucine oxidation or nitrogen retention in healthy men
*A. E. El-Khoury, A. Forslund, R. Olsson, S. Branth, A. Sjödin, A. Andersson, A. Atkinson, A. Selvaraj, L. Hambraeus, and V. R. Young* E394

Enteral glutamate is the preferential source for mucosal glutathione synthesis in fed piglets
*P. J. Reeds, D. G. Burrin, B. Stoll, F. Jahoor, L. Wykes, J. Henry, and M. E. Frazer* E408

Muscle glycogen synthesis in recovery from intense exercise in humans
*J. Bangsbo, K. Madsen, B. Kiens, and E. A. Richter* E416

Relationship of visceral adipose tissue and glucose disposal is independent of sex in black NIDDM subjects
*M. A. Banerji, J. Lebowitz, R. L. Chaiken, D. Gordon, J. G. Kral, and H. E. Lebovitz* E425

Tumor necrosis factor activity of pancreatic islets
*S. K. Leeper-Woodford and B. W. Tobin* E433

## MODELING IN PHYSIOLOGY

Simulation of IGF-I pharmacokinetics after infusion of recombinant IGF-I in human subjects
*M. A. Boroujerdi, R. H. Jones, P. H. Sönksen, and D. L. Russell-Jones* E438

## RAPID COMMUNICATION

Leptin receptors in the adrenal medulla of the rat
*G.-Y. Cao, R. V. Considine, and R. B. Lynn* E448

## No. 3. SEPTEMBER 1997

Oxidant stress-induced transendothelial migration of monocytes is linked to phosphorylation of PECAM-1
*V. Rattan, C. Sultana, Y. Shen, and V. K. Kalra* E453

Inhibition of cholesterogenesis decreases hepatic secretion of apoB-100 in normolipidemic subjects
*G. F. Watts, R. P. Naoumova, J. M. Kelly, F. M. Riches, K. D. Croft, and G. R. Thompson* E462

Glucose ingestion affects cardiac ANS in healthy subjects with different amounts of body fat
*G. Paolisso, D. Manzella, N. Ferrara, A. Gambardella, P. Abete, M. R. Tagliamonte, D. De Lucia, G. Furgi, C. Picone, S. Gentile, F. Rengo, and M. Varricchio* E471

Differential regulation of glycogen synthase by insulin and glucose in vivo in skeletal muscles of the rat
*M. C. Sugden, M. J. Holness, and L. G. D. Fryer* E479

Physiological changes in circulating glucagon alter hepatic glucose disposition during portal glucose delivery
*L. C. Holste, C. C. Connolly, M. C. Moore, D. W. Neal, and A. D. Cherrington* E488

Regional differences in adipose tissue metabolism between sedentary and endurance-trained women
*P. Mauriège, D. Prud'homme, M. Marcotte, M. Yoshioka, A. Tremblay, and J. P. Després* E497

Serum free IGF-I during a hyperinsulinemic clamp following 3 days of administration of IGF-I vs. saline
*J. Frystyk, M. Hussain, C. Skjærbæk, O. Schmitz, J. S. Christiansen, E. R. Froesch, and H. Ørskov* E507

More marked stimulation by lithium than insulin of the glycogenic pathway in rat skeletal muscle
*C. Fürnsinn, C. Noe, R. Herdlicka, M. Roden, P. Nowotny, B. Leighton, and W. Waldhäusl* E514

Glutamate transport regulation of renal glutaminase flux in vivo
*P. Carter and T. Welbourne* E521

Dexamethasone increases $G\alpha_{q\text{-}11}$ expression and hormone-stimulated phospholipase C activity in UMR-106–01 cells
*J. Mitchell and A. Bansal* E528

Roles of intensity and duration of nocturnal exercise in causing phase delays of human circadian rhythms
*O. M. Buxton, S. A. Frank, M. L'Hermite-Balériaux, R. Leproult, F. W. Turek, and E. Van Cauter* E536

Fructose transport and GLUT-5 protein in human sarcolemmal vesicles
*S. Kristiansen, F. Darakhshan, E. A. Richter, and H. S. Hundal* E543

Growth hormone-binding protein enhances growth hormone activity in vivo
*D. Turyn, F. P. Dominici, A. I. Sotelo, and A. Bartke* E549

Ornithine α-ketoglutarate modulates tissue protein metabolism in burn-injured rats
*J. Le Boucher, C. Obled, M.-C. Farges, and L. Cynober* E557

Functional heterogeneity of leucine pools in human skeletal muscle
*O. H. Ljungqvist, M. Persson, G. C. Ford, and K. S. Nair* E564

Cell cycle regulation of membrane glucocorticoid receptor in CCRF-CEM human ALL cells: correlation to apoptosis
*F. N. A. Sackey, C. S. Watson, and B. Gametchu* E571

Absolute concentrations of glycerol and lactate in human skeletal muscle, adipose tissue, and blood
*E. Hagström-Toft, S. Enoksson, E. Moberg, J. Bolinder, and P. Arner* E584

Dopamine requires ascorbic acid to be the prolactin release-inhibiting factor
*S. H. Shin, F. Si, A. Chang, and G. M. Ross* E593

$1,25(OH)_2D_3$ enhances PTH-induced $Ca^{2+}$ transients in preosteoblasts by activating L-type $Ca^{2+}$ channels
*W. Li, R. L. Duncan, N. J. Karin, and M. C. Farach-Carson* E599

L-Arginine for testing endothelium-dependent vascular functions in health and disease
*D. Giugliano, R. Marfella, G. Verrazzo, R. Acampora, F. Nappo, P. Ziccardi, L. Coppola, and F. D'Onofrio* E606

Rat adipose tissue amino acid metabolism in vivo as assessed by microdialysis and arteriovenous techniques
*T. J. Kowalski, G. Wu, and M. Watford* E613

Role of glycogen-lowering exercise in the change of fat oxidation in response to a high-fat diet
*P. Schrauwen, W. D. Van Marken Lichtenbelt, W. H. M. Saris, and K. R. Westerterp* E623

Where is the "inverting factor" in hormone secretion from parathyroid cells?
*Y. Cohen, R. Rahamimov, T. Naveh-Many, J. Silver, and R. Rahamimoff* E630

Inhibition of TSH-induced hydrogen peroxide production by TNF-α through a sphingomyelinase signaling pathway
*T. Kimura, F. Okajima, T. Kikuchi, A. Kuwabara, H. Tomura, K. Sho, I. Kobayashi, and Y. Kondo* E638

Plasma leptin responses to fasting in Pima Indians
*R. E. Pratley, M. Nicolson, C. Bogardus, and E. Ravussin* E644

## RAPID COMMUNICATION

Human kidney free fatty acid and glucose uptake: evidence for a renal glucose-fatty acid cycle
*C. Meyer, V. Nadkarni, M. Stumvoll, and J. Gerich* E650

## LETTERS TO THE EDITOR

Maximal metabolic rate and the balance of substrate utilization in aging
*G. A. Brooks; S. Klein and A. Coggan* E655

## No. 4. OCTOBER 1997

Insulin is degraded extracellularly in wounds by insulin-degrading enzyme (EC 3.4.24.56)
*J. D. Shearer, C. F. Coulter, W. C. Engeland, R. A. Roth, and M. D. Caldwell* E657

Intracellular mechanisms underlying prostaglandin $F_{2\alpha}$-stimulated phasic myometrial contractions
*M. Phillippe, T. Saunders, and A. Basa* E665

Role of epinephrine and norepinephrine in the metabolic response to stress hormone infusion in the conscious dog
*O. P. McGuinness, V. Shau, E. M. Benson, M. Lewis, R. T. Snowden, J. E. Greene, D. W. Neal, and A. D. Cherrington* E674

Regulation of glucose transporter GLUT-4 and hexokinase II gene transcription by insulin and epinephrine
*J. P. Jones and G. L. Dohm* E682

Electrical stimulation induces fiber type-specific translocation of GLUT-4 to T tubules in skeletal muscle
*D. Roy, E. Jóhannsson, A. Bonen, and A. Marette* E688

Potassium currents in ventricular myocytes from genetically diabetic rats
*K. Tsuchida and H. Watajima* E695

Impaired adaptation of first-phase insulin secretion in postmenopausal women with glucose intolerance
*B. Ahrén and G. Pacini* E701

Tissue triglycerides, insulin resistance, and insulin production: implications for hyperinsulinemia of obesity
*K. Koyama, G. Chen, Y. Lee, and R. H. Unger* E708

Caloric restriction increases $HDL_2$ levels in rhesus monkeys (*Macaca mulatta*)
*R. B. Verdery, D. K. Ingram, G. S. Roth, and M. A. Lane* E714

Interleukin-8 can mediate acute-phase protein production by isolated human hepatocytes
*S. J. Wigmore, K. C. H. Fearon, J. P. Maingay, P. B. S. Lai, and J. A. Ross* E720

Effects of exercise in diabetic rats before and during gestation on maternal and neonatal outcomes
*J. L. VanHeest and C. D. Rodgers* E727

Effects of estrogen and growth hormone on skeleton in the ovariectomized rat with hypophysectomy
*J. K. Yeh, M.-M. Chen, and J. F. Aloia* E734

Abnormal regulation of HGP by hyperglycemia in mice with a disrupted glucokinase allele
*L. Rossetti, W. Chen, M. Hu, M. Hawkins, N. Barzilai, and S. Efrat* E743

Induction of NO and prostaglandin $E_2$ in osteoblasts by wall-shear stress but not mechanical strain
*R. Smalt, F. T. Mitchell, R. L. Howard, and T. J. Chambers* E751

Fatty acids reduce heparin-releasable LPL activity in cultured cardiomyocytes from rat heart
*L. G. Anderson, R. Carroll, H. S. Ewart, A. Acharya, and D. L. Severson* E759

Lipolytic suppression following carbohydrate ingestion limits fat oxidation during exercise
*J. F. Horowitz, R. Mora-Rodriguez, L. O. Byerley, and E. F. Coyle* E768

Age-related decreases in stimulatory G protein-coupled adenylate cyclase activity in osteoblastic cells
*H. J. Donahue, Z. Zhou, Z. Li, and L. K. McCauley* E776

Myosin light-chain phosphorylation controls insulin secretion at a proximal step in the secretory cascade
*Y. Iida, T. Senda, Y. Matsukawa, K. Onoda, J.-I. Miyazaki, H. Sakaguchi, Y. Nimura, H. Hidaka, and I. Niki* E782

Effects of aging on in vivo synthesis of skeletal muscle myosin heavy-chain and sarcoplasmic protein in humans
*P. Balagopal, O. E. Rooyackers, D. B. Adey, P. A. Ades, and K. S. Nair* E790

Differential effect of pp120 on insulin endocytosis by two variant insulin receptor isoforms
*S. Li Calzi, C. V. Choice, and S. M. Najjar* E801

Maximal aerobic capacity in African-American and Caucasian prepubertal children
*C. A. Trowbridge, B. A. Gower, T. R. Nagy, G. R. Hunter, M. S. Treuth, and M. I. Goran* E809

Intestinal growth is associated with elevated levels of glucagon-like peptide 2 in diabetic rats
*K. D. Fischer, S. Dhanvantari, D. J. Drucker, and P. L. Brubaker* E815

## MODELING IN PHYSIOLOGY

A kinetic mass balance model for 1,5-anhydroglucitol: applications to monitoring of glycemic control
*D. Stickle and J. Turk* E821

**No. 5. NOVEMBER 1997**

Role of hepatic α- and β-adrenergic receptor stimulation on hepatic glucose production during heavy exercise
*R. H. Coker, M. G. Krishna, D. B. Lacy, D. P. Bracy, and D. H. Wasserman* E831

Determination of local brain glucose level with [$^{14}$C]methylglucose: effects of glucose supply and demand
*G. A. Dienel, N. F. Cruz, K. Adachi, L. Sokoloff, and J. E. Holden* E839

Stimulation of $Ca^{2+}$ influx in αT3–1 gonadotrophs via the cAMP/PKA signaling system
*M. Hezareh, W. Schlegel, and S. R. Rawlings* E850

Rat amylin-(8—37) enhances insulin action and alters lipid metabolism in normal and insulin-resistant rats
*M. Hettiarachchi, S. Chalkley, S. M. Furler, Y.-S. Choong, M. Heller, G. J. S. Cooper, and E. W. Kraegen* E859

Inhibition of glycogenolysis enhances gluconeogenic precursor uptake by the liver of conscious dogs
*M. Shiota, P. A. Jackson, H. Bischoff, M. McCaleb, M. Scott, M. Monohan, D. W. Neal, and A. D. Cherrington* E868

Parathyroid $Ca^{2+}$-conducting currents are modulated by muscarinic receptor agonists and antagonists
*W. Chang, T.-H. Chen, S. A. Pratt, B. Yen, M. Fu, and D. Shoback* E880

Existence of two nonlinear elimination mechanisms for hepatocyte growth factor in rats
*K.-X. Liu, Y. Kato, M. Kato, T.-I. Kaku, T. Nakamura, and Y. Sugiyama* E891

Albumin and fibrinogen syntheses increase while muscle protein synthesis decreases in head-injured patients
*O. Mansoor, M. Cayol, P. Gachon, Y. Boirie, P. Schoeffler, C. Obled, and B. Beaufrère* E898

Role of the kidney in human leptin metabolism
*C. Meyer, D. Robson, N. Rackovsky, V. Nadkarni, and J. Gerich* E903

In humans at least 75% of insulin secretion arises from punctuated insulin secretory bursts
*N. Pørksen, B. Nyholm, J. D. Veldhuis, P. C. Butler, and O. Schmitz* E908

Reversal of chronic alterations of skeletal muscle protein kinase C from fat-fed rats by BRL-49653
*C. Schmitz-Peiffer, N. D. Oakes, C. L. Browne, E. W. Kraegen, and T. J. Biden* E915

Role of cAMP and calcium influx in endothelin-1-induced ANP release in rat cardiomyocytes
*M. C. Rebsamen, D. J. Church, D. Morabito, M. B. Vallotton, and U. Lang* E922

Growth hormone induces detergent insolubility of GH receptors in IM-9 cells
*J. F. Goldsmith, S. J. Lee, J. Jiang, and S. J. Frank* E932

Interleukin-1β inhibits phospholipase C and insulin secretion at sites apart from $K_{ATP}$ channel
*J. Vadakekalam, M. E. Rabaglia, and S. A. Metz* E942

Alterations in cardiac contractility and gene expression during low-$T_3$ syndrome: prevention with $T_3$
*H. L. Katzeff, S. R. Powell, and K. Ojamaa* E951

Structure and activity of uroguanylin and guanylin from the intestine and urine of rats
*X. Fan, F. K. Hamra, R. M. London, S. L. Eber, W. J. Krause, R. H. Freeman, C. E. Smith, M. G. Currie, and L. R. Forte* E957

Electroretinogram in sucrose-fed diabetic rats treated with an aldose reductase inhibitor or an anticoagulant
*N. Hotta, J. Nakamura, F. Sakakibara, Y. Hamada, T. Hara, K. Mori, E. Nakashima, H. Sasaki, N. Kasama, S. Inukai, and N. Koh* E965

Interaction of equal increments in arterial and portal vein insulin on hepatic glucose production in the dog
*D. K. Sindelar, C. A. Chu, D. W. Neal, and A. D. Cherrington* E972

Glucagon-like peptide 1 inhibition of gastric emptying outweighs its insulinotropic effects in healthy humans
*M. A. Nauck, U. Niedereichholz, R. Ettler, J. J. Holst, C. Ørskov, R. Ritzel, and W. H. Schmiegel* E981

Effects of age on the irregularity of LH and FSH serum concentrations in women and men
*S. M. Pincus, J. D. Veldhuis, T. Mulligan, A. Iranmanesh, and W. S. Evans* E989

Plasmin degradation of insulin-like growth factor-binding protein-5 (IGFBP-5): regulation by IGFBP-5-(201—218)
*P. G. Campbell and D. L. Andress* E996

Insulin-like growth factor (IGF)-binding protein-5-(201—218) region regulates hydroxyapatite and IGF-I binding
*P. G. Campbell and D. L. Andress* E1005

Reduced insulin receptor signaling in the obese spontaneously hypertensive Koletsky rat
*J. E. Friedman, T. Ishizuka, S. Liu, C. J. Farrell, D. Bedol, R. J. Koletsky, H.-L. Kaung, and P. Ernsberger* E1014

## MODELING IN PHYSIOLOGY

The hot IVGTT two-compartment minimal model: indexes of glucose effectiveness and insulin sensitivity
*P. Vicini, A. Caumo, and C. Cobelli* E1024

## SPECIAL COMMUNICATION

Regional differences in interstitial glycerol concentration in subcutaneous adipose tissue of women
*R. C. Hickner, J. S. Fisher, and W. M. Kohrt* E1033

# No. 6. DECEMBER 1997

## INVITED REVIEW

Exercise regulation of glucose transport in skeletal muscle
*T. Hayashi, J. F. P. Wojtaszewski, and L. J. Goodyear* E1039

Leucine metabolism in TNF-α- and endotoxin-treated rats: contribution of hepatic tissue
*M. Holeček, L. Šprongl, F. Skopec, C. Andrýs, and M. Pecka* E1052

[Pro$^{11}$,D-Ala$^{12}$]angiotensin I has rapid onset vasoconstrictor activity in the cat
*E. A. Garrison, H. C. Champion, and P. J. Kadowitz* E1059

Influence of thyroid status on hepatic $\alpha_1$-adrenoreceptor responsiveness
*F. J. Daza, R. Parrilla, and A. Martín-Requero* E1065

Effect of physical activity and fasting on gut and liver proteolysis in the dog
*A. E. Halseth, P. J. Flakoll, E. K. Reed, A. B. Messina, M. G. Krishna, D. B. Lacy, P. E. Williams, and D. H. Wasserman* E1073

Transport of CRH from mouse brain directly affects peripheral production of β-endorphin by the spleen
*J. Martin Martins, W. A. Banks, and A. J. Kastin* E1083

Insulinotropic action of α-D-glucose pentaacetate: functional aspects
*W. J. Malaisse, C. Sánchez-Soto, M. E. Larrieta, M. Hiriart, H. Jijakli, C. Viñambres, M. L. Villanueva-Peñacarrillo, I. Valverde, O. Kirk, M. M. Kadiata, and A. Sener* E1090

Whole body leptin kinetics and renal metabolism in vivo
*J. Zeng, B. W. Patterson, S. Klein, D. R. Martin, S. Dagogo-Jack, W. M. Kohrt, S. B. Miller, and M. Landt* E1102

AICA riboside increases AMP-activated protein kinase, fatty acid oxidation, and glucose uptake in rat muscle
*G. F. Merrill, E. J. Kurth, D. G. Hardie, and W. W. Winder* E1107

Adrenomedullin is a potent stimulator of osteoblastic activity in vitro and in vivo
*J. Cornish, K. E. Callon, D. H. Coy, N.-Y. Jiang, L. Xiao, G. J. S. Cooper, and I. R. Reid* E1113

Effects of marginal iodine deficiency during pregnancy: iodide uptake by the maternal and fetal thyroid
*P. M. Versloot, J. P. Schröder-van der Elst, D. van der Heide, and L. Boogerd* E1121

A new biological contribution of cyclo(His-Pro) to the peripheral inhibition of pancreatic secretion
*P. Fragner, O. Presset, N. Bernad, J. Martinez, C. Roze, and S. Aratan-Spire* E1127

Skeletal unloading inhibits the in vitro proliferation and differentiation of rat osteoprogenitor cells
*P. J. Kostenuik, B. P. Halloran, E. R. Morey-Holton, and D. D. Bikle* E1133

Expression of a single gene produces both forms of skeletal muscle cyclic nucleotide-gated channels
*L. C. Santy and G. Guidotti* E1140

Measurement of muscle protein degradation in live mice by accumulation of bestatin-induced peptides
*V. Botbol and O. A. Scornik* E1149

Protein depletion and replenishment in mice: different roles of muscle and liver
*O. A. Scornik, S. K. Howell, and V. Botbol* E1158

High-fat feeding alters both basal and stress-induced hypothalamic-pituitary-adrenal activity in the rat
*B. M. Tannenbaum, D. N. Brindley, G. S. Tannenbaum, M. F. Dallman, M. D. McArthur, and M. J. Meaney* E1168

Effects of vagal blockade on the counterregulatory response to insulin-induced hypoglycemia in the dog
*P. A. Jackson, M. J. Pagliassotti, M. Shiota, D. W. Neal, S. Cardin, and A. D. Cherrington* E1178

Effects of insulin-like growth factor I on glucose metabolism in rats with liver cirrhosis
*K. F. Petersen, R. Jacob, A. B. West, R. S. Sherwin, and G. I. Shulman* E1189

Galanin is localized in sympathetic neurons of the dog liver
*T. O. Mundinger, C. B. Verchere, D. G. Baskin, M. R. Boyle, S. Kowalyk, and G. J. Taborsky, Jr.* E1194

Catecholamines increase monocyte TNF receptors and inhibit TNF through $\beta_2$-adrenoreceptor activation
*X. Guirao, A. Kumar, J. Katz, M. Smith, E. Lin, C. Keogh, S. E. Calvano, and S. F. Lowry* E1203

## SPECIAL COMMUNICATIONS

Quantifying gluconeogenesis during fasting
*V. Chandramouli, K. Ekberg, W. C. Schumann, S. C. Kalhan, J. Wahren, and B. R. Landau* E1209

Determination of cerebral glucose transport and metabolic kinetics by dynamic MR spectroscopy
*P. C. M. van Zijl, D. Davis, S. M. Eleff, C. T. W. Moonen, R. J. Parker, and J. M. Strong* E1216

Improved estimation of anaplerosis in heart using $^{13}C$ NMR
*D. M. Cohen and R. N. Bergman* E1228
